PROFESSIONAL SUMMARY

Python Full Stack Developer with hands-on experience building web applications in Python and Django, REST APIs, MySQL and machine learning models. Regular user of LLM tools like ChatGPT and Claude AI. Seeking a Python + Full-Stack role to write clean, maintainable code for AI projects.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Web Development: HTML5, CSS3, Django, RESTful APIs

Database: MySQL

AI / LLM: LLM prompting, ChatGPT, Claude AI, Antigravity AI, OpenAI APIs, Scikit-learn

Tools: Git, GitHub, VS Code

WORK EXPERIENCE

Python Full Stack Developer Intern *2026*

Infosys Springboard – Remote

- Developed responsive full-stack web applications using Python, REST APIs and MySQL.
- Used Object-Relational Mapping (ORM) to build database models and run validation scripts.
- Wrote readable, reusable code and practised version control, debugging and code reviews.

AI with Python Developer Intern *Jan 2026 – Present*

FUEL (Future Unified Education & Learning) – Remote

- Developed Python applications connected to relational databases.
- Built RESTful backend services using Django to connect features to user-facing platforms.
- Worked with Scikit-learn and OpenAI APIs for data processing tasks.

PROJECTS

Predictive Smart Parking Availability System *Python, Scikit-learn, Django*

- Built a machine learning model (Random Forest, Gradient Boosting) to predict parking availability from historical data.
- Developed a Django web portal that shows predicted parking slot availability to drivers.

WebScour – Distributed Web Crawler & Search Engine *Python, RabbitMQ, TF-IDF*

- Built a multi-node web crawler using RabbitMQ for reliable distributed crawling.
- Applied TF-IDF to index pages and display relevance-ranked search results.

EDUCATION

B.Tech in Computer Engineering *2022 – 2026*

Gramin Technical & Management Campus, Nanded | CGPA: 7.58 / 10.00

PUBLICATION & CERTIFICATIONS

- Co-authored "Predictive Smart Parking Availability System Using Machine Learning", IRJET Journal (Vol 13, Issue 04).
- Participated in Hackspectra 36-Hour National Hackathon and SIH Institute Level Hackathon.
- Python Foundation Certification – Infosys Springboard.
- Python Full Stack Development Training – Kiran Academy (Ongoing).
